

UNDERSTANDING & IMPLEMENTATION OF ISO 45001:2018

Understanding & Implementation of Occupational Health & Safety Management System ISO 45001:2018

Description

Program #: **MSP-0012**

An organization is responsible for the occupational health and safety of workers and others who can be affected by its activities. This responsibility includes promoting and protecting their physical and mental health. The adoption of an OH&S management system is intended to enable an organization to provide safe and healthy workplaces, prevent work-related injury and ill health, and continually improve its OH&S performance. During this training course, you will gain a thorough understanding of the best practices of Occupational Health and Safety Management Systems and be able to apply them in an organization to ensure the well-being of employees by providing a safe and healthy working environment.

Who Should Attend ?

- Managers or consultants involved in Occupational Health and Safety Management
- Expert advisors seeking to master the implementation of an Occupational Health and Safety Management System
- Individuals responsible for maintaining conformance with OH&SMS requirements
- OH&SMS team members

Learning Objectives

- Understand the management system implementation process
- Become aware of the requirements of ISO 45001:2018.
- Understand the initial review (gap analysis) process
- Learn tools and techniques for implementation
- Become familiar with the key documentation requirements
- Learn how to develop meaningful performance indicators and their application
- Learn how to implement a continual improvement process

Prerequisites

- None

Training Place

- In site training
- As NCV schedule

Duration

- 4 Days

Outcomes

- Acknowledge the correlation between ISO 45001 and other standards and regulatory frameworks
- Master the concepts, approaches, methods and techniques used for the implementation and effective management of an OHSMS
- Build employee and stakeholder confidence with robust health and safety management
- Learn how to demonstrate commitment to health and safety management with legal and regulatory compliance
- Get the skills to implement a management system
- Learn how to interpret the ISO 45001 requirements in the specific context of an organization
- Learn how to support an organization to effectively plan, implement, manage, monitor and maintain an OHSMS
- Acquire the expertise to advise an organization in implementing Occupational Health and Safety Management System best practices

Content

- Scientific Material (**Hardcopy**)
- Attendance Certificate from **NCV**

Language

- Arabic / English

Understanding & Implementation of Occupational Health & Safety Management System ISO 45001:2018
